

# Streamline Your Workflow with VersaDoc™

See how many ways it can save you time & money.

# VersaDoc is a valuable tool.

It turns variable-data projects into profit centers and provides instant, print-ready files, allowing you to minimize proofing cycles, reduce turnaround times and increase your profit margin.

Implementing VersaDoc on your website lets your customers order branded marketing materials 24/7 and see an immediate proof, saving everyone involved both time and money. You can decrease your costs by 20% when you use VersaDoc. For print shops with a high volume of reorders or clients who work for companies with multiple locations or a large number of employees, VersaDoc is especially useful.

VersaDoc lets users type variable information into frequently purchased items and instantly view their proof. When it's all set, it delivers a print-ready file right to your Springboard.

## **BENEFITS FOR YOU:**

- Decrease your costs by 20%.
