

## **We are sick and tired of Big Tobacco trying to trick kids into a lifetime of addiction.**

The tobacco industry thrives by targeting kids and our communities with crazy flavors, potent nicotine doses, flagrant and targeted marketing, and cheap prices—they're using every trick in the book to fool people into addiction. Help us by exposing their tricks and supporting policies to end flavored tobacco sales. It's time to stop these Jokers for good!

**Your friend in the fight for a healthier future,**
